### Board of Directors Elects Troy Cox as New Chairman

Former Foundation Medicine CEO Troy Cox has been elected as Chairman of the Board of Directors, effective March 1, 2020, replacing Antoine Duchateau. "I'm proud to take a leadership role at this important time of expansion and to be part of SOPHIA GENETICS mission. Thanks to its global and universal approach that already benefits more than 1,000 hospital partners, SOPHIA is uniquely positioned to lead and promote an important movement in the entire ecosystem," said Troy Cox.

### Industry leaders team up with SOPHIA

### New collaborations further access to Data-Driven Medicine

This week at AGBT, both [Twist Bioscience](#) and [MGI](#) announced that they will now offer their customers access to the SOPHIA Platform. The combination of their respective technologies with the power of SOPHIA will ultimately help more experts accurately detect and characterize genomic variants associated with cancer and rare diseases... A leap forward in our mission to democratize Data-Driven Medicine around the world.

### Looking for a variant in the haystack?

### Discover the Clinical Exome Solution for better handling of rare diseases

Exome sequencing is widely used when other alternatives fail to identify alterations in genes associated with hereditary and rare diseases. The Clinical Exome Solution by SOPHIA GENETICS is a comprehensive molecular diagnostic application enabling the detection of all types of genomic variants associated with the most common inherited disorders. It allows clinicians to accurately diagnose hereditary and rare diseases and answer big questions in genomic diagnostics.

EMPLOYEE MOTIVATION

*Understanding Our Differences to Democratize Data-Driven Medicine, Together*

*"What keeps me excited about the work is that I'm always seeing something different, something new. The people I work with are all so different. Everyone has had a completely unique life experience. You spend time with people who are so different than you, but we all have the same goal. We all want to make our customers happy and to be recognized for what we do, and at SOPHIA GENETICS we're fortunate to have those opportunities."*

- Giorgia Riboldi-Tunncliffe
