

CELEBRATE OUR LAB HEROES

In April, we celebrated all lab heroes

April 18th - 24th was the National (US) Laboratory Professionals week. Lab professionals are at the core of what we do all over the world. They are essential members of our community, and we'd like to say THANK YOU to all of these heroes in gloves, directly contributing to the global fight against cancer and inherited disorders.

What does progress mean to you?

To laboratory professionals it means answers. To our team, progress means going further. We are proud to announce the launch of a new solution: **SOPHiA DDM™** for TSO500.

EMPLOYEE MOTIVATION

“ To be around positive and committed people is a great feeling; the company’s mission gives us all purpose, and it’s not something you can find in a lot of places. ”

- José Maria “Txema” Rincon Garriz, Senior NGS Scientist
